

eHealth Centre of Excellence
is currently seeking a Full Time (Contract)
Change Management Specialist

Program Overview:

The eHealth Centre of Excellence strives to work at both the provincial and local level to move eHealth initiatives in Waterloo Wellington, forward. The Centre's founding vision is one of innovation and partnership: to create a collaborative space in which to share knowledge, develop best practices and enable technology to support improved clinical care. Critical to the success of eHealth initiatives is working with system partners to support priorities that ensure the best case for the residents of Waterloo Wellington.

Position Overview:

The Change Management Specialist will play a key role in the successful implementation and adoption of digital health technologies in the Waterloo Wellington LHIN. By applying a structured change management approach and methodology, the Change Management Specialist will apply their strong technical skills to conduct implementation activities to support clinicians in a variety of settings in the community. The individual selected will need to build and support numerous stakeholder relationships, as a vital part of the Change Management mandate at the eHealth Centre of Excellence. This position will work to integrate change management and adoption activities into several eHealth Centre of Excellence programs.

Key Roles and Responsibilities:

- Apply a structured change management approach and methodology for the “people side of change,” resulting from projects and change efforts.
- Provides quality improvement supports to primary care clinicians and organizations to optimize the use of EMRs.
- Ensure the alignment of change management activities with participating health service providers, to smooth the adoption process and contribute to problem solving resulting in successful implementation
- Incorporate adoption and change management strategies based on situational awareness of the details of the change and the groups being impacted
- Conduct implementation activities, document lessons learned and present findings in a logical and easy-to-understand manner
- Be an active and visible coach to clinicians and stakeholders

- Work with organizations and the program team to create workflows and manage measurement systems to track adoption, utilization and proficiency of individual changes
- Identify resistance and performance gaps, and work to develop and implement corrective actions
- Create and enable reinforcement mechanisms and celebrations of successes
- Work with the program team in the execution of work plans and activities to support project implementation
- Work with system partners to remove barriers to change
- Develop clinical decision support tools for primary care electronic medical records
- Provide workflow and change management support to clinicians to help embed these tools into existing and new processes
- Other duties as assigned

Experience, Skills & Qualifications:

- Minimum of 3 years of experience in an eHealth or health care capacity (Primary Care experience an asset)
- Post-secondary education in Information Technology, Information Management, healthcare related field, and/or an equivalent education and experience
- Previous experience with enabling technologies and digital health within Ontario, including a solid understanding of electronic medical records (EMRs)
- Knowledge and experience developing and building tools in EMRs an asset
- A solid understanding of clinical processes
- Strong communication skills (written and oral)
- Able to work effectively with a diverse group of clinical and non-clinical stakeholders in diverse organizations
- Excellent active listening and interpersonal skills
- Strong ability to pay attention to detail
- Change Management Professional designation an asset

If this position is of interest to you, please send your cover letter and resume to: Human Resources at hr@family-medicine.ca

The CFFM Care Innovations team is a respectful and inclusive workplace. Upon individual request, hiring processes will be modified to remove barriers to accommodate those with disabilities. Should any applicant require accommodation through the application, interview or selection processes, please contact Human Resources at hr@family-medicine.ca for assistance.

We thank all interested applicants; however, due to the volume of resumes we receive only those selected for an interview will be contacted.
